

SUPER X WALKING FOOT

KING-PIN WALKING FOOT

OVERVIEW

The Super X brings the versatile X to the Super Stomper. With 8 feet of travel, lower ground bearing pressure, and all the same X functions, the Super X is the best of both worlds.

The Super X moves in any direction, at any time, and can change direction under load. Precision control is easier than ever before, further reducing total move time.

- Extended 8 feet of travel stroke increases speed
- Expanded flexibility for precision control
- Full length walking foot for lower ground bearing pressures
- Fully compatible and interchangeable with the King-Pin family
- Autowalk and Autolift with manual backup standard

TECHNICAL SPECIFICATIONS

JACK CAPACITY	1.5M Lb / 900,000 Lb / 750,000 Lb / 600,000 Lb
TOTAL CAPACITY	No Limit
DISTANCE PER STEP	96"
CYCLE TIME	60 Seconds
JACKS	12" Lift Standard, Other Sizes Available
FOOT SIZE	Engineered to Fit
STEERING	None Required, Travel on Demand
HYDRAULICS	Compatible with 3000psi Pressure-Compensated HPU
